

BY THE NUMBERS

What is your favorite school event so far?

"My favorite event this year was Homecoming, especially the performances throughout the week. It was really fun watching all the different skits. I liked the juniors skit the most because it was honestly really creative and the dancers coordinated it. It was just cool to watch."

BY THE WAY, What is one thing you miss about middle school?

CHARLIE CHEN

"Playing Tetris in class because it helped me get through like most of my classes and it was a great mind exercise to put the shapes in correct spots. [My classes were] pretty boring so Tetris made the class more interesting."

SAAILEY PALEKAR

"I missed the people because they made middle school fun, since the environment is different in high school. I don't know as many people because most people went to Kennedy, [and] I went to Lawson."

VARUN SINGH

"In middle school the teachers definitely care more about your grades. [My favorite teacher was] Mr. Noguera. He was my language arts and social studies teacher, and he was very laid back and nice."
